

On 9.11 2001, terrorists struck in Manhattan, causing unprecedented devastation and huge casualties. 9.11.2001 was also the 225th anniversary of a failed peace conference with the British, to end the American Revolution of 1775. 225 is the inverse of 1775 (in secret society lingo, inverse and reverse apparently mean retaliation, and some of these societies are high on vengeance, just ask the Masons. On 9.11, all 4 flights reversed course).

In 1783 the American Revolution (ARV) ended 119 years (the reverse of 911) of British control over Manhattan. Then Robert E Lee (born 24 years after the ARV on 1.19.1807, the reverse of 9.11), leads the South in a devastating CIVIL War (Lee's first battle was on 9.11 1861 (on Cheat mountain).

Manhattan (ground zero for 9.11) was purchased in 1621 for \$24 from the Indians (The Dutch East India Company (world traders) got another sweet deal). 342 years later JFK is shot at Dealey Plaza, on his way to the Trade Mart. 380 years later (from 1621) the World Trade Center is demolished (In 1981 flight AA342 just misses the North Tower).

The number 64 appears symbolic of 1664, when the British first controlled Manhattan (after battling the Dutch). In 1864 Robert E Lee's estate was turned into Arlington cemetery. 64 years after the Civil war, the 1929.10.29 stock market crash brings America to its knees. The next president FDR (F and D are the 6th and 4th letters) had an inauguration speech 1883 words long (1883 is the 100th anniversary year of the ARV which ended in 1783).

After 9.11 2001, Skull and Bones Bush stood on the 9.11 rubble (on 9.14) wearing hat 164. Also, the WTC (World Trade Center) plan was approved in 1964

FDR's inauguration speech took 20 minutes. Research suggests that the letter "T" (the 20th letter) is a symbol of retaliation. For example, the Titanic was hit at 20 till, and sunk at 20 after. On 2.20.1981 AA342 just missed a collision with the North Tower. 20 years later on 9.11 2001, terrorists destroy the twin towers. Also, the British East India Company emblem has 3 crosses (3 T's) that match the Titanic's timeline (struck at 20 till, sunk at 20 after).

Then there's the case of JDR (John Davison Rockefeller), the oil dictator (suspected 007) who's oil empire was forced to dissolve in 1911 (90 years before 9.11), due to an 1890 ruling (the SAA, Sherman Anti-Trust Act section II, SAA translates to 19 1 1, or 1911, and section II might translate to the twin towers). Two years after he was ordered to dissolve his empire (by the State of Ohio), in 1892, JDR apparently suffered a nervous breakdown (the next year America was struck with a financial crisis). Then In 1929 (29 is the reverse of 92), America was devastated by the worst financial crisis in history. Other research suggests that the 1929 financial crisis was intentional.

JDR's company was ordered to dissolve on the 15th (5.15.1911), and the Titanic sank on the 15th (4.15.1912) and 1500 died on the Titanic. The muckrakers referred to JDR's company as #15. After the sinking of Titanic, JDR remained at his summer retreat (in Forrest Hill Park in Ohio) well into the next year, so much so that he racked up a \$1.5 million tax bill. Also, Titanic radio operators gave rescuers a position off by 15.5 miles (the reverse of 5.15 when JDR's Company was ordered to dissolve).

By the 1900's (after his 1892 episode) JDR was funding medical research into eugenics (leads to racism) (its doctrines were adopted by the Nazis), and offered "professional racist" Thomas Dixon Jr, \$500,000 to build a church (that's 15 million dollars in today's money) (Dixon's books on the Ku Klux Klan led to a Klan resurgence in 1915, especially after the movie "The Birth of a Nation") (1915 translates to "19=S and 15=O, and Standard Oils initials are S and O) (the first SOS was on the Titanic). Also, Hitler's Germany was helped and supplied by Standard Oil's descendent corporations, during WWII.

As if by coincidence, Titanic's captain looks like Robert E Lee, and Appomattox looks like an ice berg. Robert E Lee's name is also reversed in the name of the designer of the twin towers that imploded during 9.11 2001.

As if by coincidence, the idea of "race" was apparent in the sinking of Titanic. Captain Smith was racing at top speed, through ice berg alley, in the dead of night (the look outs had no binocular's), when he hit the ice berg. Phillips was bogged down with a backlog of messages from Cape Race (the excuse to sit on 4 Ice Berg warnings). Captain Lord refused to act, as long as Titanic's rockets were white in color. In the 1900's JDR seemed to be seeking racial purity, when he funded Institutes in eugenics, and of course the Ku Klux Klan were the epitome of racism, like Dixon, the "professional racist", who JDR was fond of.

Some say JFK took a bullet for the Blacks. At the time the Ku Klux Klan, was historically a very violent group, having killed thousands of Blacks (and many associates) (many thru assassination and bombings) (JFK's head blew up on 11.22.1963) (Dallas was known as "the city of hate").

JFK must have incited the Klan, with his Civil Rights legislation, and forcefully integrating Southern University's. Suspected shooter "Badge man" seemed to be wearing a Klan patch. And coincidentally the UKA (United Klan of America) was created the same year JFK was elected, as if JFK was a pinnacle in their agenda (The UKA went defunct 35 years later, and JFK was the 35th president). Even the Bilderberg's had their first meeting on JFK's 37th birthday (the inverse is 63, for 1963, the year JFK was shot).

Then there's the theory that JDR was a Confederate OO7, along with the other "Robber Baron's", whose apparent mission was to infiltrate US Industry, then pillage and plunder, culminating with the 10.29.1929 wall street crash. This might explain the financial crisis of 1873, 1893, and 1907 (somebody was messin with our money, after the Civil War).

JFK was threatened on the 34th anniversary of the 1929 Stock Crash, then shot 9 days later (like with the Bilderberg's holding their first meeting on JFK's birthday, 9 years before he was shot). The number 9 translates to the letter "I" (research suggests it means the biblical retaliatory phrase "an eye for an eye"). The dagger (from the British Black Watch Regiment), had the inscription "nobody wounds us with impunity".

JFK's dad Joe worked his way up to investment banker, and struck it rich on the heels of the 1929 stock crash (that brought America to its knees, ending the "Roaring 20's"). Joe Kennedy had sold most of his stock holdings before the crash, then enriched himself during the panic "by selling short, betting on stock prices to fall". This was an event where most investors lost their fortunes.

The number 34 appears symbolic, perhaps because JDR's empire was forced to split into 34 pieces in 1911 (Titanic split into two pieces the next year). JFK was shot 34 months into his presidency, his wife was age 34 (having been born in 1929 before the stock crash, and JFK was born on the 29th) (29 is the

reverse of 92, for 1892 when JD Rockefeller, apparently suffered a nervous breakdown, after his oil empire was threatened by the State of Ohio, under an Anti-trust ruling.).

The construction of Dealey Plaza (where JFK was shot) began in 1934. Coincidentally JD Rockefeller (the suspected OO7 whose mission was apparently part of a conspiracy to pillage and plunder the US economy) reenters the picture, since his oil empire was decimated into 34 pieces.

If you add 34 to 29 (for the 1929 stock crash) you get 63, for 1963, the year JFK was shot, leaving one to ask, was JFK shot because of his dad's shenanigan's? The Warren Commission report was 888 pages, and JFK's dad was born in 1888, and every single person on the commission were 33rd degree Mason's (JFK's dad bad mouthed the Jews during WWII, and seemed to side with Hitler on his "Final Solution"). It wasn't just JFK, but his entire family met tragedy. His dad went from rags to riches, then tragedy. They even stole JFK's brain from the National Archives in 1966 (the inverse is 34).

Joe Kennedy's his oldest daughter was lobotomized, JFK and RFK were assassinated, Joe the oldest son, blew up in an airplane, Ed Kennedy died of a brain disease. JFK's 2nd son died quickly (lived 1 day and 15 hours, there's #15 again). His 1st son crashed on the 30th anniversary of the Apollo moon shot.
