INTRODUCTION The Bad and the Ugly, or worse, the Fiendish, the evil maniacs, evil incarnates

This report is based on assertions about being targeted by an unknown organization, who I refer to as the SS (for Secret Society). The assertions are based on decades of being victimized by the SS, who can easily fit the mold of a terror group, with ties reaching into the upper echelons of government (I wouldn't be surprised if the SS is the government).

The SS appear to be racist in nature, and the facts suggest I'm being used to perfect their tactics, for a higher purpose (some people call it slavery). The SS appears to be a clandestine organization, at the highest levels (with tremendous sophistication), with tactics designed to leave little or no evidence (memory wipes for example, or tech where they could shut a target off like a light switch). So, trying to report their crimes is very difficult, and you have to make assertions, contentions, claims, like a scientist trying to understand a phenomenon. Plus, they're always drugging me, so I'm lucky I wrote this intro.

Their technology, their expertise in psychological warfare, or mind control, telepathy, is off the charts, off the Richter scale, in uncharted waters, with capabilities that appear farfetched to those not privy.

They can stage accidents, drive a target nuts, make anybody homeless, ruin careers (assertions based on my Diary's).

The details in this report, will show these people as ruthless, with no humanity (suggesting hate crime). They'll shove the sensation of acid down your throat in a second, simply to punish, or retaliate; or yank your legs apart beyond its limitations (because of this I can't run like I use to) as a show of force for writing what I do (like on 9.11 or JFK or Trump); or smiting me with worm disease, then stopping the hospitals from helping me (like in 2011 or recently on 7.6.2026 after shoving large worms in my gut, about a year ago), or making me homeless (21 years ago), or try to Gillotine me over and over and over (Gillotine is a name I gave to the SS ability to drive people nut's (they use a chemical I refer to as nerve gas). They also struck with Biological warfare to kick off 2024.1.20 (with Covid, as if to snuff me out, before any political commentary during Trumps election year. Then on the 2nd anniversary, he says "he not gonna be there very much longa" as I faced necessary surgery).

If all this is proven true, the pillars of freedom would be threatened (Democracy, Free Speech, Liberty, Justice, Life, The Pursuit of Happiness). Throughout history Tyranny has taken many forms, as the lust for power seethe's in every generation.

The ultimate crime, would have to be the 9.11 tragedy in 2001, with the suggestion that it was retribution for a past wrong (perhaps the Civil War) with the twin towers symbolic of two emphatic "I"s (symbolic for the biblical phrase "an eye for an eye"), ominously towering over Manhattan for 27 years (my research looked at JD Rockefeller, since his empire crumbled in 1911, and 9.11 was 90 years later, and the 1890 Sherman Antitrust Act, brought down Standard Oil). I suspected SS involvement in 2001, and since then their actions against me have proliferated (including making me homeless and physical torture (after I published a 9.11 perspective in 2016) (The worst is the sensation of acid down the throat).

The original version of this report was written in 2019. However after a gauntlet of obstruction (with torture, terror, intimidation, scare tactics, threats, drugging me, gassing me, beating up on the brain (to force memory loss), kill attempts, trying to hit me with a car, targeting both I and my home (the van), trying to put me on the streets many times), followed by the Covid pandemic, delayed everything.

It was only a matter of time, before they would try to snuff me out with Covid, to kick off 2024. They even showed intent (laughed in my face, 3 days before the Covid hit, waved goodbye the day before the Covid hit, symbolically gave me the thumbs down, and tried to drive me nuts before the Covid hit). Because of the fast acting disease, I had 5 days to get medicated (yet it took me 3 days to get tested). My own doctor even dumped me in the middle of the panic. By day 4 they were playing keep away with the medication, wasting my time, as if to run out the clock. Plus there was no excuse (with 3 vaccinations, double masked at all times, even after the pandemic ended in 2023, and precautions beyond what was necessary). Even today I'm the masked man.

For details on SS attacks, Refer to Section II

For Factual details, refer to Section III

For details on obstruction refer to the Report "SS Obstruction Mania", or read Part II.

The SS is a possible conspiracy inside the government (which might include the CIA, the Military, the Klan, the Mason's, Naval Intelligence).

PART I A Little History

The Price for Free Speech is high

A 23-year effort, has uncovered a cascade of theories on the 9.11 2001 tragedy, the JFK HIT, the sinking of the Titanic, the McKinley HIT, MK Ultra the monster, and the possibility that JD Rockefeller was involved in many a tragedy, and that JFK was an innocent lamb, led to the slaughter, paying the price for others.

It cost me everything

My efforts cost me a Condo, a Mercedes, a SUV, a house, my mother, my dog, and my livelihood. They confiscated my property (in a clandestine manner), and made me a vagabond living out of a beat-up old van (the last 20 years). My condo had been command and control to report the SS, now my van is command and control.

A Little History

After the 9.11 tragedy actually hit in 2001 (my website went up that same year) I was intent on connecting the SS to the tragedy. Consequently they confiscated my property (in a clandestine manner) and put me under a quarantine (intercepting communications, that's probably how they made me homeless) (assertions I call a virtual Prison), as if to shut me up and keep tabs on me, probably so I wouldn't run around like Paul Revere exclaiming "The SS did 9.11! The SS did 9.11!".

Now I can't fly to DC like I use to (no money) (my last trip was in 1999 (when I dropped off 1000 reports) (2.5 years before 9.11). A year after I got back from DC, they crippled me (yanked my legs apart like a wish bone), as if in retaliation, or maybe they were trying to silence me, in anticipation of 9.11, which hit the following year. When I got back from a jog that day (9.11.2001), I noticed the SS pulled up my chess game (on the desktop computer) with a Robert E Lee lookalike smiling back at me (the big theory, is that the Civil war was the reason for 9.11, hence the North tower, and the South tower, and the fact that Robert E Lee's name is reversed, in the name of the designer of the World Trade Center) (research suggests reverse symbolism is symbolic for retaliation, thus you have all 4 flights reversing course).

It Cost me everything

They even stole from me as I was going homeless (they rented the condo and didn't pay rent, to the tune of 43K) (they sold the condo (due to foreclosure) and kept half the money (I lost about 12K) (They also took my Mercedes). 9.11 symbolism was all over the data (like, they foreclosed on 9.11 + 1, the plates on my brand new SUV had "911", and GIP (like 'you got jipped') was the buyer.

So, it looked like an SS land grab (They even pulled some shenanigans, exactly one year earlier, as if to ensure the land grab would succeed). They incapacitated me while signing my Refinance documents on 9.9.2004 (using SS symbolism, the 9th letter is "I", two "I's" mean (an eye for an eye), the biblical phrase for retaliation (like the Twin Towers appeared to be two emphatic "I"s towering over Manhattan. Then there was the sinking of the Titanic, which happened exactly 11 months after JD Rockefellers oil empire was split asunder).

They made me homeless for digging into 9.11, accusing the SS at the get-go.

There was no excuse

They kept me poor and homeless with no excuse (I have a tech degree, years and years of proven experience, and 100's of job's nationwide went begging every day, for my skills). So, the act was blatant, like that of a tyrant (the loss is in the millions).

Because of this, I wasted away doing TM (Telemarketing) for 13 years (that's the only job the SS would let me have) ("wanna buy, wanna buy" that's all I'd say all day), (like having Einstein peel potatoes, 8 hours a day, 40 hours a week, for 13 years, at $11 per hour (4 years of College down the drain. Decades of tech experience wasted). My TM days were paused in 2020 with Covid.

2026 marks the 20th year of torture (from extreme weather conditions, dreading the Summers, then counting the days, during Summer time.) (braving the elements) (having been homeless living in a van since 2006) when I could've been doing tech, and living like a Richey.

Homeless like a sitting duck

So, they have me dangling over the edge of the homeless cliff (by stopping tech), then taking pot shots (at the TM jobs) (The TM jobs were the staging area for chemical and psychological warfare, and of course HIT attempts) (I'm over there trying to do my job, while bobbing and weaving at the same time). They would also drain my savings by attacking the van (if I say or write the wrong thing) (I live in the van, so its all I got).

With the quarantine, the assertion, is that they intercept communications (emails, text, voice mails, phone calls), which is probably why I never got a tech job. Circumstances suggest they rig job sites (one possibility is their hacks hardcode stops, based on my ID).

PART II OBSTRUCTION

This Report was Obstructed to the nth degree

After publishing 9.11 theory in 2016 (9.11 Probe B), it's been obstruction to the nth degree (terrorism, intimidation, torture, punishment, even legitimate hit attempts (for example just recently on 6.7.2023, the HIT was in my face terrorizing me (making a scene, yelling, ordering me around, threatening me) as if trying to get me to do something stupid) (In 2018, one HIT slashed my tire (as if to prevent escape) in the dead of night, and ordered me out of the van, on D-Day at 1am (D-Day ?) (the SS even gave me the thumbs down hours earlier) (The police called it vandalism. Of course the SS had me drugged and in a brain fog due to sleep deprivation, so I couldn't explain my case).

I was also threatened with death many times (for example 2 years ago (in 2024, the election year), I was threatened with death (face to face encounter), after I published "The Butler story" suggesting the assassination attempt was staged. Then on 6.12.2023 (OJ Simpson day) they mimicked a crime scene, making it look like blood was splattered all over the toilet I use (It turns out the OJ murders was the 27th anniversary of a Supreme court ruling on mixed marriages). So, the SS appear racist, suggesting their actions against me, might be considered a Hate crime (perhaps a racist conspiracy inside the government, invoking forced servitude to perfect their secret warfare) (That seems to be me, forced servitude).

They used the BUB ("Beat up the Brain", see Part III) to force memory loss (with the assertion that this involves electroshocks, concussions, brain injections, etc). This of course is the ultimate cover up (just wipe a targets memory) (every time they did this, I had to relearn tech, read my tech manuals all over again). The last few years they would kick off the new year with the BUB (probably so I wouldn't remember what they did to me (minimizing the trail of evidence against them, and weakening my reports against them). That's why I keep a hand written Diary (information that partly forms the basis for my **assertions, contentions, claims, innuendo's, suggestions, hints, theory's**, **perspectives**, attempting to define the SS.

They also seemed to use the media to communicate their intent (like an Alzheimer's threat during the 3-month BUB in 2019, and a comatose threat 2 months after the BUB).

Almost impossible to Report them

They can shut me off like a light switch, then get in and attack, while I'm in a comatose state (the assertion is, that they have my brain rigged). So they could drug me at will, even outside a police station, or hit me with a concussion (when no ones looking) (while I'm trying to write a report), or yank my legs apart, or induce the sensation of acid down throat (the theory is they use a chemical which attacks the mucus membranes (turns them into painful sores, when stimulated).

The possibilities are endless. Now they've been putting me to sleep at will (the assertion, is its sleeping gas) when I try to do research, or do a report (delaying this report).

So, reporting these people can be tough, especially with strong indicators that they simply intercept my reports (which I drop off in person). Plus, they simply drug me when no one's looking. It's a no win, any way you look at it.

Plus everything's rigged (my Van, my cell phone, my laptop, my CD players, me). If I call the wrong person they'll simply drop the call. If somebody leaves a voicemail, they'll overlay it with something else (these are all assertions based on decades of experience). If somebody seeks me, they'll send me out of town to fix my car problem.

They did the BUB (Beat up the Brain, see Part III) the first 3 months of 2023, as if anticipating another Diary report. So, the SS will do the atrocities, but want it kept secret, don't want me reporting it.

They keep me poor (money is power).

What happened to my Freedom

With the quarantine, they've taken away my freedom, down to the CD player. They even cut off entertainment (June July August 2026, as if trying to Gillotine me) (cut off the news, stop streaming movies), controlling the wireless companies, to harass me, shut off my hotspot, argue with me on the phone, hang up on me (about 8 times). They even used a service center to stage a HIT. They sabotaged my van radio, my boom box, and stole my cell phone, simply to stop me from listening to the news, and any commentary (which I use to publish).

CD players (they'll shut it off if I listen to the wrong music, like religious music), For example, I routinely worked out with music, since I went homeless. Now they wont even let me do that. Last January, right before they hit me with Covid, they kept shutting the music off). They wont even let me joke about Trump, subjecting me to chemical torture (inducing

sensations, like ready to vomit, or acid down the hatch, or violent hiccups). I didn't joke around for a month, after they hut me with Covid in 2024.

PART III

Sentenced to Brain Siberia

After I published 9.11 Probe B in 2018, I was sentenced to brain Siberia, and subjected to the BUB (beat up the brain) for 3 months (to force memory loss), as if to silence the witness any way possible, cover up the brain evidence, destroy the brain files, wipe his memory, stop 9.11 theory in its brain tracks (My last 9.11 probe was in 2018, and have since struggled to get this report out).

It was all out war with the brain, Tony's brain vs the SS (they've also been pumping my brain with something the last 9 months). The sentence apparently was to send my brain into oblivion (I call it the Gillotine) using brain violence as I slept (suspected tactics include concussions, electroshocks, saturating the brain with chemicals, drugs, brain washing, hypnotism, suggestive psychology). It's all about the brain, and the accumulated information.

They use high tech to attack (torture, cripple, memory wipes, punish, retaliate)

They can shut me off like a light switch, so no place is safe (the suspicion is that MK Ultra (MKU) still lives, a secret CIA mind control program that officially ended in 1973) (The suspicion, is that it simply went underground) (now they can shut you off like a light switch. Now they can drive people nuts). They also have a gas that screws up your brain, on the spot (I call it nerve gas). Just recently, for the 6.7.2023 in your face HIT, the SS deluged me with nerve gas (the day before) as if to cloud my judgement for next days HIT, and get me to do something stupid.

With these guys, the brain is typically the target. Instead of simply being an information gathering tool, it's the SS worst enemy. The theory is, that MK Ultra is now a powerful secret weapon (that it simply went underground in 1973, so its growth and development could continue unabated, without scrutiny, especially by the press). The suspicion is, that MK Ultra is being used against political opponents, like Biden and his coherency problems, like Mitch staring into space).

With MKU and the ability to shut me off like a light switch, I'm a sitting duck, for anything (crippling me, even in church, electro shock me, concussion me, any place any time, drug me, chemically induce the sensation of acid down the throat) in broad daylight, in front of witnesses (while I just sit there, as if comatose, helpless, speechless, oblivious, tuned out), at the library, in the van, in church (like in 2016 when they crippled me during mass), when the time is right to render punishment for something I wrote or published (they also assault my van to punish me (like in 2016, Trump's election year, they emptied my savings account to the tune of $5000 (a fortune for a homeless guy), by attacking the van with car problems.

They have Sci Fi tech (so I'm rigged), so they shut me off by remote control, get in and do things (cripple me, drug me), like in National Geographic. It's convenient, and their punishment is swift and harsh (for example when I published my first 9.11 theory in 2016, they kept crippling me the next 2 months (They even crippled me in church, I almost couldn't get up. That was the day I switched church's, then, the SS stalked me to my next church, and crippled me there).

Sometimes they simply punished me when Trump showed up (as if to say 'the King has arrived!, whack!) (one time I could barely walk). In 2018 (after the 6.6.2018 HIT on D-Day), they kept me pumped with no-doze (to keep me awake (after getting no sleep), to keep my brain sabotaged, for the police interview (after waiting in line for hours, making the brain sabotage even worse). During the HIT, they slashed my tire (to prevent escape) and ordered me out in the dead of night. The police called it vandalism. I didn't say anything, being held back by a brain fog.

5 D-Days later (+1 day) the SS struck again, with a likely HIT, terrorizing me (yelling, making a scene (no excuse) as if to get me to do something stupid).

The SS, their influence is on the level of the FBI, or worse

Their influence seems to reach everywhere: with the authority to stop the hospitals from helping me (in 2011), after smiting me with worm disease; the authority to take over a hospitals ER in 2026, railroad the testing, and bypass the reason for the visit; the authority to deny me subsidized housing in 2023; the authority to sign my REFI doc's after they incapacitated me (in 2004); the authority to change the way the FBI receives tips (another assertion). It's got to be somebody high in the government, controlling a wireless company, come on.

There's indicator's that they intercepted reports at city hall, at the Board of Supervisors, at the US attorney's office, the City Attorney, US representatives, the Governor's office, the DA's office, the Police (In one case in 2008 the front desk refused my report 4 times. The report claimed the Government was trying to kill me).

They waged their tactics (psychological warfare, chemical warfare, biological warfare) at Aerospace companies (government contractors), large Oil companies overseas. They would continuously gas me in my apartment, targeting the brain). In one case, they gassed me with sleeping gas, at my desk, for weeks, before I was fired. In one case, they kept me pumped with No-doze, with little sleep, to screw up my training.

The SS has to be a higher authority, like the CIA or Military, or Naval Intelligence, or a conspiracy inside the government that controls government resources, like perhaps the Masons, or the Klan (the SS appears racist).

When Trump arrived on the political scene (in 2016) the SS attacks were suddenly off the scale (unprecedented, bold, brazen, made for TV events), as if the SS was suddenly emboldened, encouraged, incited with a greater purpose, as if they had great expectations for Trump (the dictator wanna-be, for example whimsically shutting down the government in 2018 for 35 days, at a cost of 11 billion to the economy, so an insurrection was no surprise).

In 2016, the SS was suddenly crippling me in unprecedented fashion (for over 2 months they were yanking my legs apart beyond their limits, in May and June). In 2016 the SS emptied my savings account ($5000), by attacking the van.

In 2017 Christmas time, the SS tried to run my van into the lake (in reverse) (as if to kill me) (They almost decapitated me, almost ran me over) (on the 20th anniversary of mothers death). Research suggests reverse is a symbol for retaliation.

The lake event (where I almost died) 12.23.2017, was the 20th anniversary of my mother's death on 12.23.1997. Just recently August 2026, the SS tried to send me to the ER, on the 20th anniversary of the Van's purchase. The number 20 appears symbolic in my research on the SS (For example the Titanic was struck at 20 till, and sunk at 20 after, at 220.) (20 years before 9.11, AA342 almost hit the North Tower, on 2.20.1981).

Also in 2017, the SS almost broke my neck. I was crippled for over a month (apparently for joking about Trump, prancing around on stage with a swagger).

Who has the authority to do this?

making me homeless

drives people nuts

Shut you off like a light switch, so they can get in and do things

Memory wipes (beat up the brain until you cant think)

Chemical torture (the sensation of acid down the hatch)

Cripple targets by yanking their legs apart in church, during mass

Stage HITs, like running your van into the lake

Slashing your tire to prevent escape

Threatening to slash your tires

Threatening to kill you, after I wrote The Butler Story

Use nerve gas, trying to drive you nuts

yank your legs apart beyond it's limitations

smiting me with worm disease, then stopping the hospitals from helping me;

stages accidents

routinely intercept my reports to city and state officials

a condo land grab

use the media to communicate their intent

modify the way the FBI receives tips

wage their tactics at large defense contractor installations, big oil company's, military installations

take over police stations
